

OVERVIEW

Smart Yachts
INTERNATIONAL

SPECIALISTS IN SMART TECHNOLOGY
FOR MARINE ENVIRONMENTS.

WHO ARE WE?

Smart Yachts International are a specialist team providing smart control solutions exclusively tailored to marine environments. This team is a partnership containing three elements that we believe form an unbeatable offering:

- A multi-award winning, high end home installation company (Your Smart Home)
- A leading software integrator that exclusively develops smart home integration solutions for many leading brands globally (Intrinsic Group)
- A marine electronics specialist with over two decades experience of working with some of the biggest names in the yachting industry (Plymouth Marine Electronics)

Our solutions are designed to be stylish, reliable, user-friendly and intuitive. They are designed exclusively for marine environments and offer effortless control of:

- Media
- Audio
- Lighting
- Shades
- Heating
- Cameras
- Reliable wireless networking

All solutions can be remotely monitored and supported.

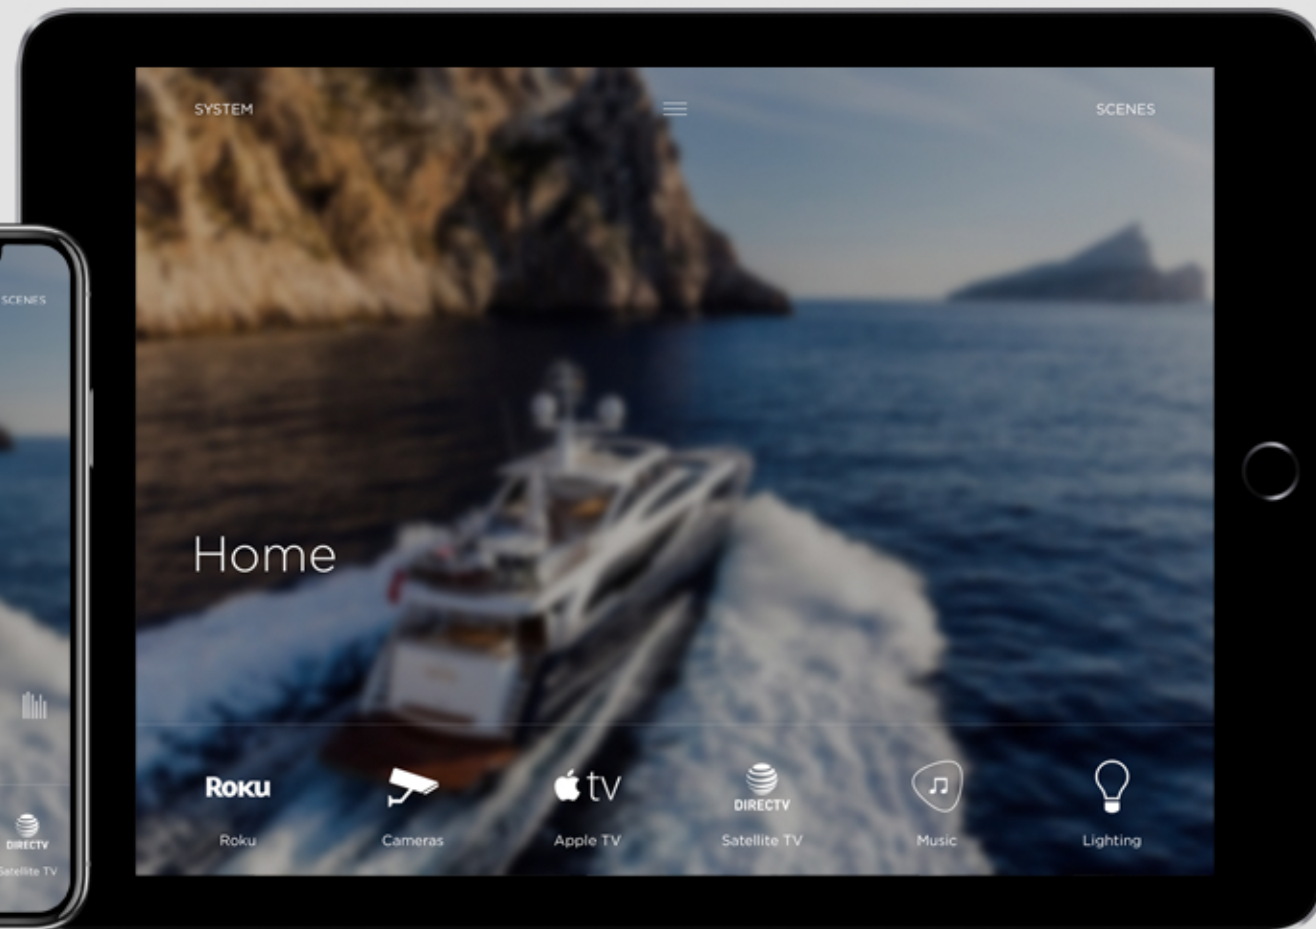

ABOUT

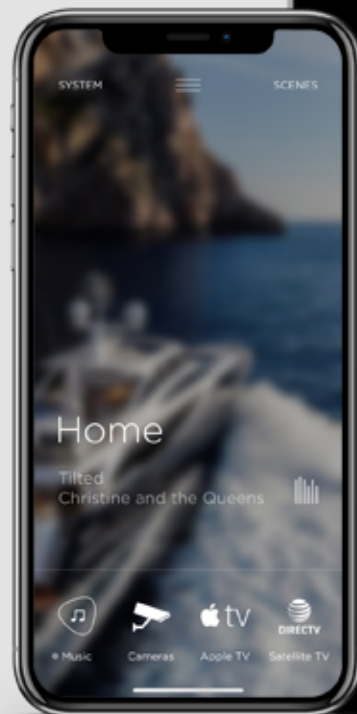

FEATURES OVERVIEW:

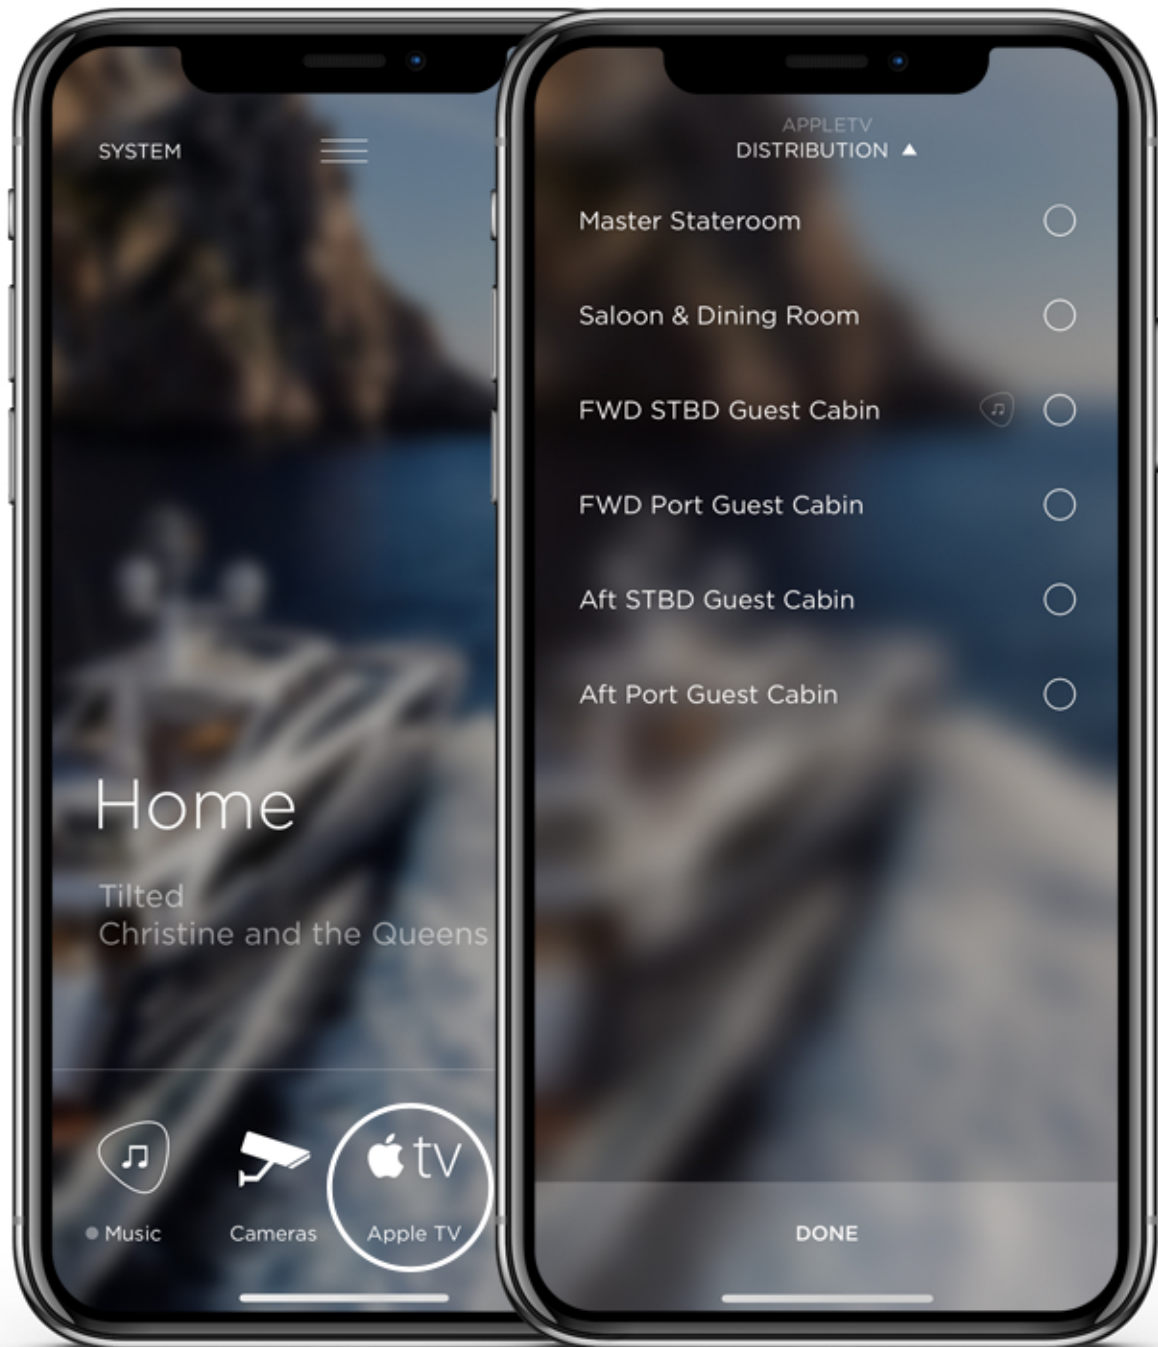

- Effortless control from a range of devices, including in-room touch screens, smartphones, tablets, remote controls and smart watches.
- Control of all entertainment (audio and video elements)
- Every internal room has access to the local Blu-ray Player with audio routed through the main sound system
- Every room has its own music player
- Music can be grouped between and across rooms
- Every music player has access to all the leading streaming services, as well as personal music collections
- 5.1 Zones feature ultra-compact amplifier that can mount to rear of TVs
- Compact and powerful subwoofers
- Every room features a smart remote control with colour OLED touchscreen
- Possibility to control lighting, shades, CCTV and more.

INTERFACE
(Example Home Screen iPad)

INTERFACE
(Example Home Screen iPhone)

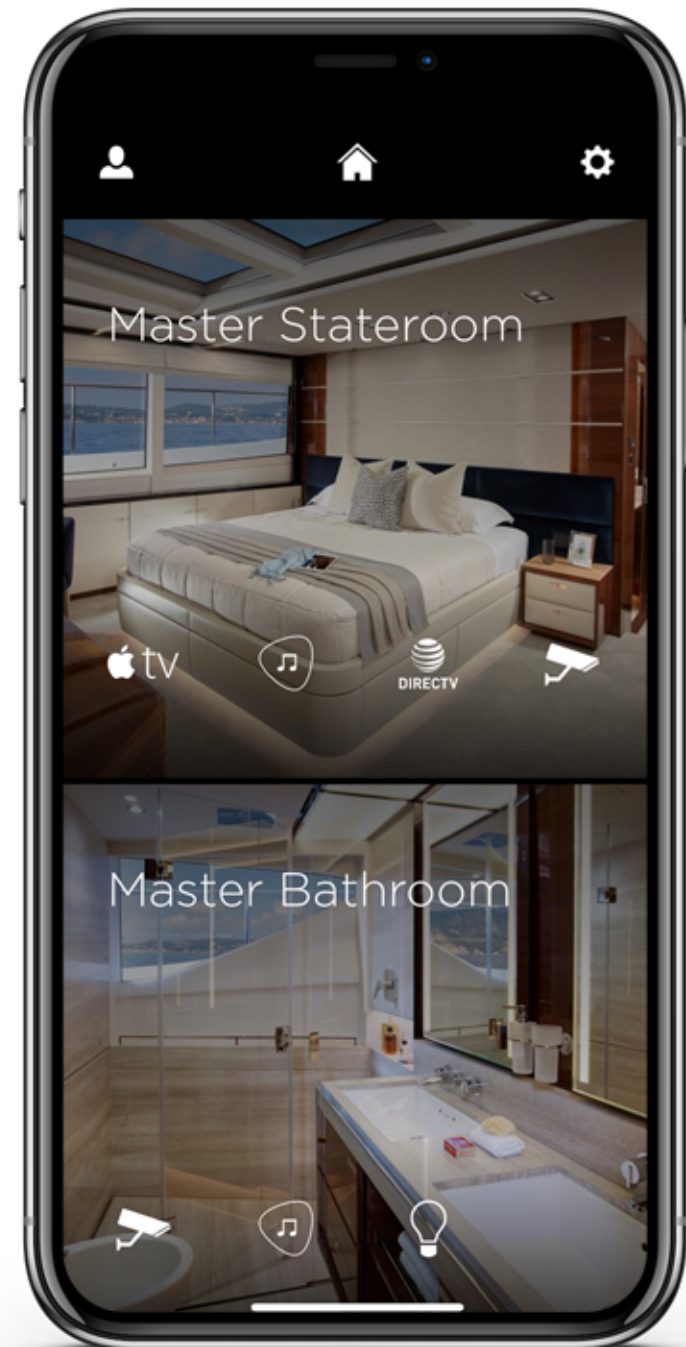

USER EXPERIENCE:

A consistent, clear user interface, with imagery customised to each project.

< User can quickly select a feature from the home screen by tapping on the icon, then select which room (or rooms) they would like to turn on with that feature.

Or, by navigating to the room you wish to control. >

EASY CONTROL OF ALL TV SOURCES:

A simple interface on any tablet or phone offers control of TV sources for each room or utilise our stylish remote controls with integrated touchscreens.

SUPPORTED DEVICES INCLUDE:

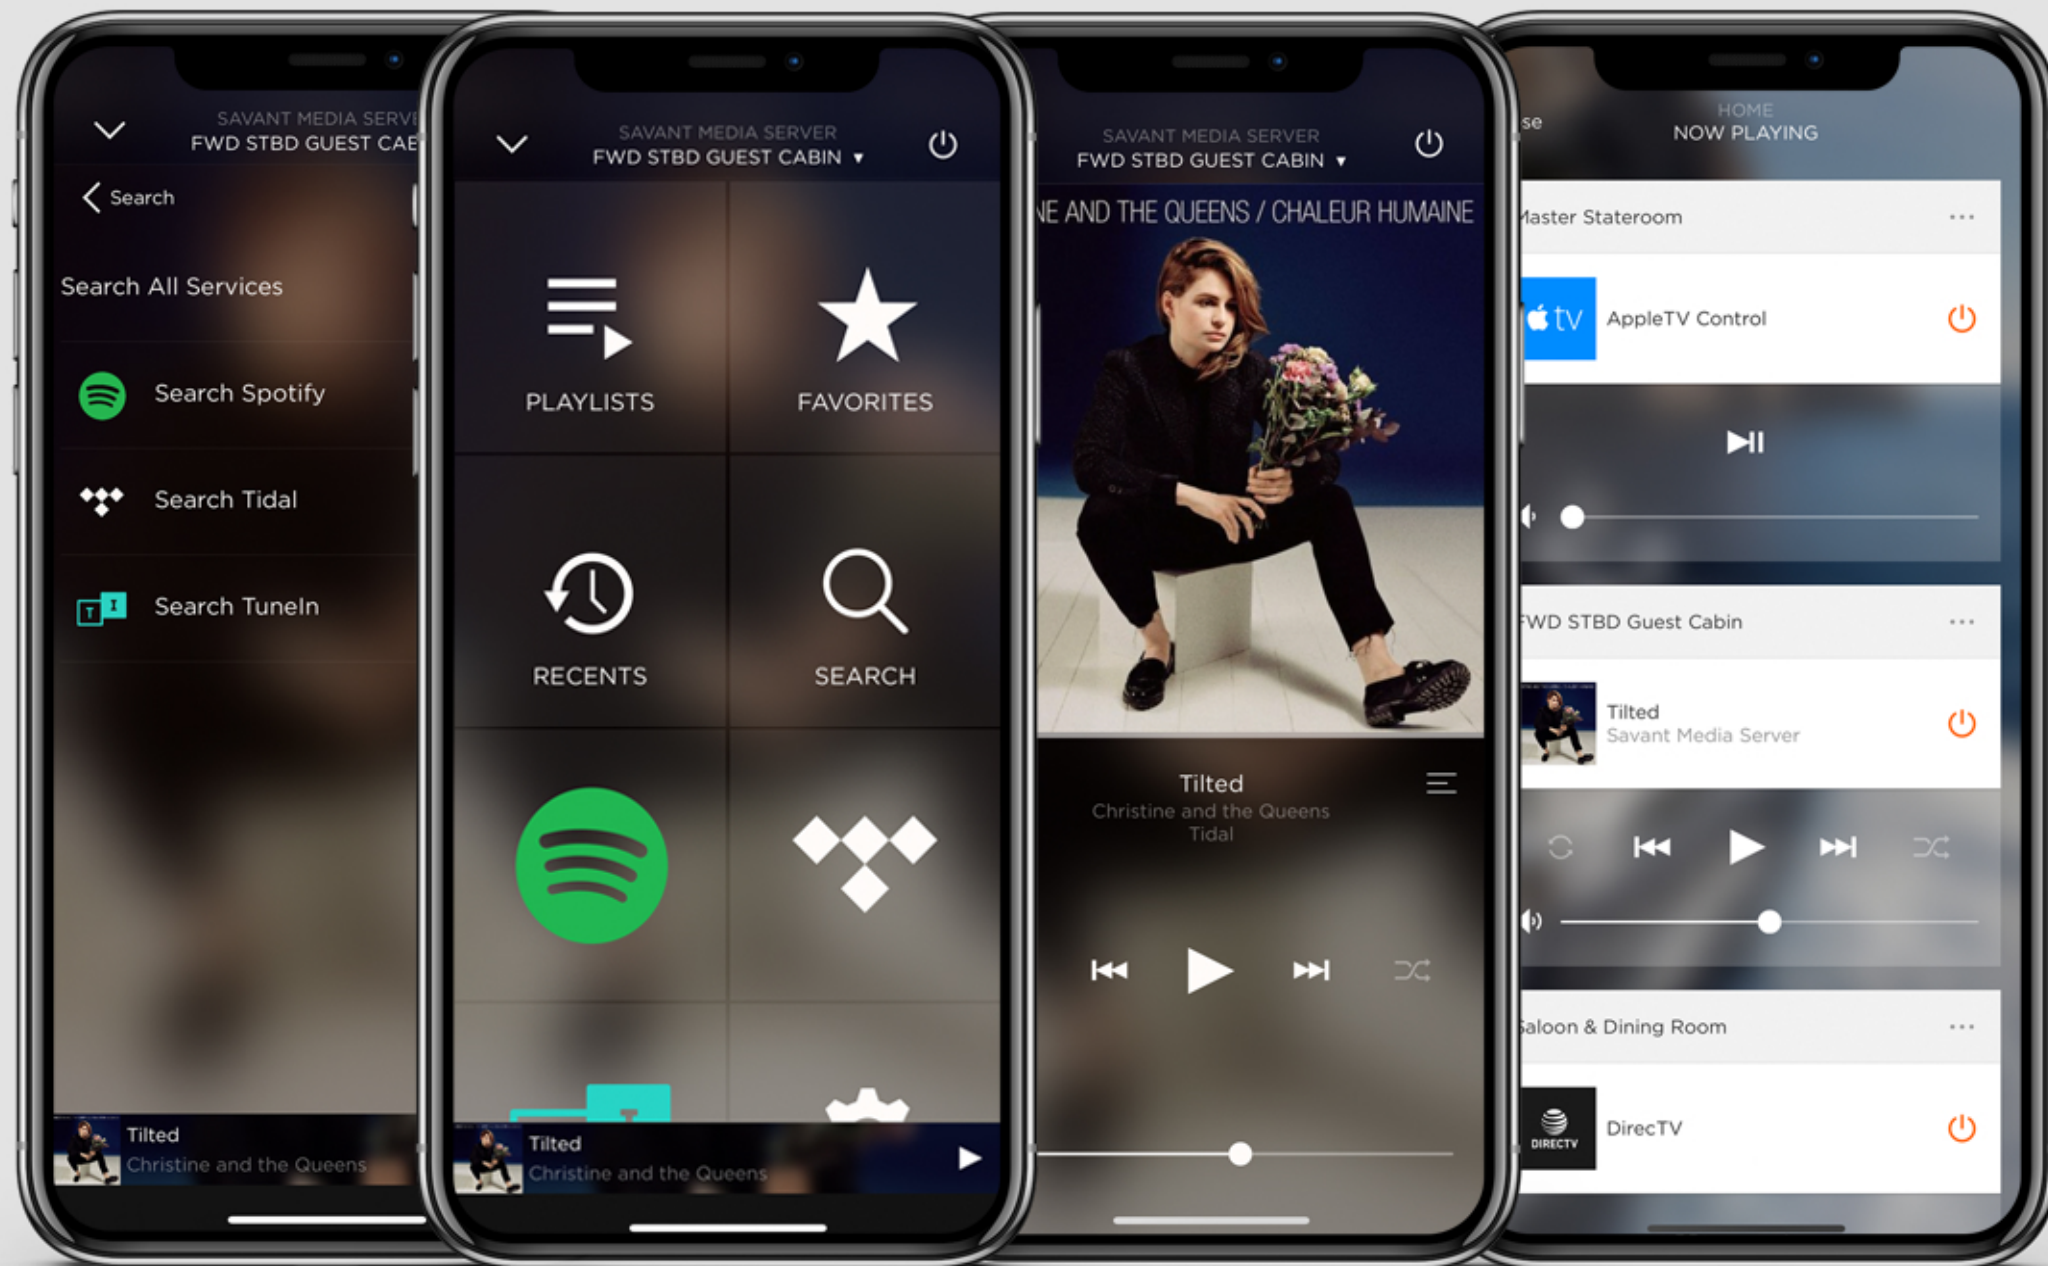

MEDIA

ALL THE MUSIC YOU COULD EVER NEED!

A simple interface that allows access to all major streaming services, digital radio and personal music libraries.

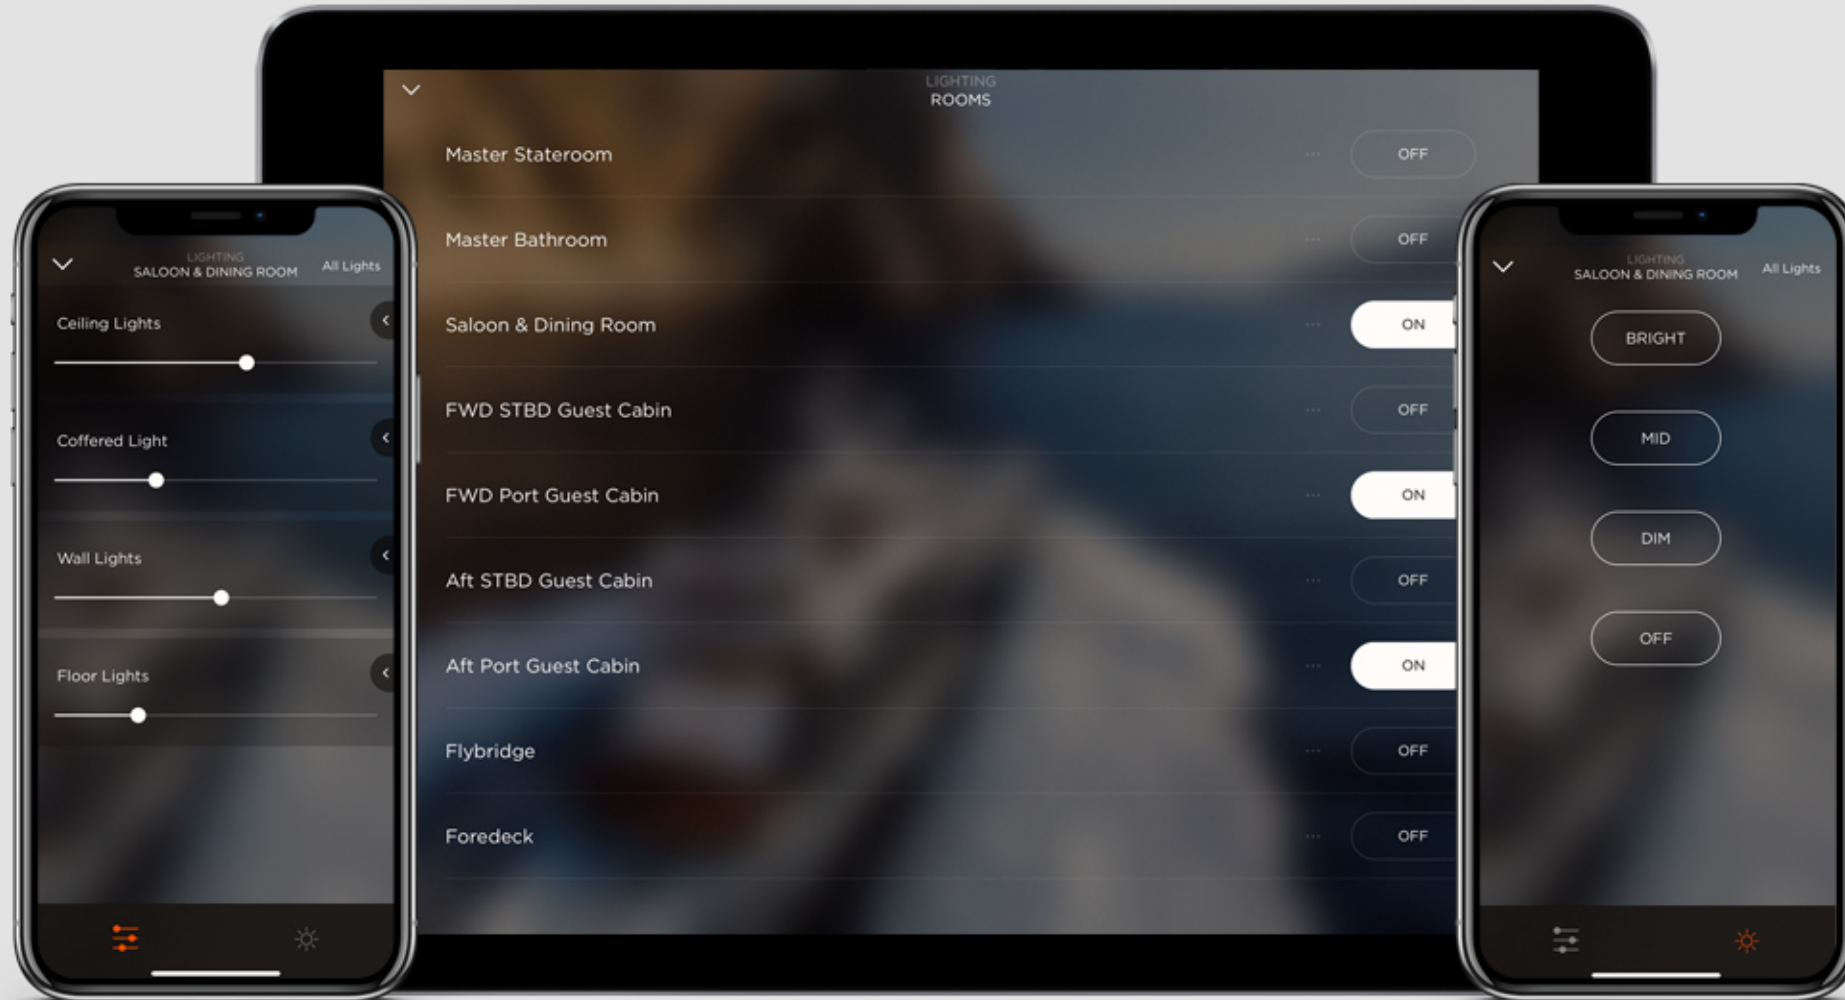

Music Services Include:

- Spotify
- Plex
- Tidal
- TuneIn
- Deezer
- Google
- Pandora
- SiriusXM

INTUITIVE LIGHTING CONTROL:

Lighting can be controlled using switches, smart devices or remote controls in each room. It is possible to see on one screen which lights are on/off and all lighting options can be accessed and controlled from anywhere.

Lighting options include:

- Ability to dim lights using a slider
- Option to set lighting intensity using pre-set levels
- Control lights from anywhere
- Create pre-set mood lighting for parties, dining, cinema rooms and more!

EASY TO ACCESS CAMERAS:

Monitoring security cameras is easy with our simple to use interface that allows the user to view all cameras remotely on one screen. Tap on the image to see more detail or rewind footage as necessary.

We can also integrate cameras from other yachts or properties the user owns so they are always in control no matter where they are.

SECURITY

OTHER OPTIONS:

- Heating/AC control
- Pool/Spa temperature control
- Shade control including set levels and manual up/down
- Cinema solutions

All of our solutions incorporate enhanced wireless networks for unrivalled reliability wherever the user is.
